ILEC CONFERENCE CENTRE
25 - 26 SEPTEMBER 2019 | LONDON, UK

WELCOME TO THE PHARMATEC SERIES 2019 POST-EVENT REPORT!

A warm welcome to our PharmaTec Series 2019 post-event report. This was the first year the Pharma IT and AI programmes were rebranded under our PharmaTec Series title, reflecting the increasing synergy between data collection / analysis and application of AI tools throughout the R&D and clinical pipeline. This year also saw the addition of our SmartLabs & Laboratory Informatics programme, offering insights and discussion opportunities in this fast-emerging area.

The PharmaTec Series will continue to showcase the latest developments in this exciting area: 2020 will see presentations delving deeper into FAIR data; data analytics & handling in drug discovery, cloud & edge computing and an expansion on the data visualization stream. An interesting new feature we are incorporating will be a workshop on 'Quantum Machine Learning in Drug R&D - A Future Perspective'. The AI in Drug Development programme will address success stories how various pharmaceutical companies implement AI in their drug discovery & development pipeline as well as in molecular design. An interesting new feature we are incorporating will be a workshop on 'Quantum Machine Learning in Drug R&D - A Future Perspective'. The SmartLabs & Laboratory Informatics Congress will see presentations across areas such as building the labs of the future, lab digitalization,

automation, robotics; and new to the agenda will be the addition of a stream dedicated to informatics tools & technologies.

2020 will also see the introduction of a Breakfast Workshop (a spirited room of discussion and knowledge sharing on the morning of day 2), and the expansion of our first-night Networking Drinks, which proved highly popular again this year. With over 300 attendees to network with, a programme featuring 90+ presentations from leading figures within the industry and key sponsors offering relevant solutions & services, it is sure to be another enjoyable and beneficial forum.

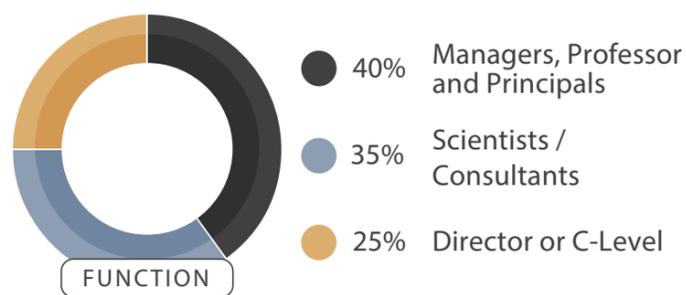

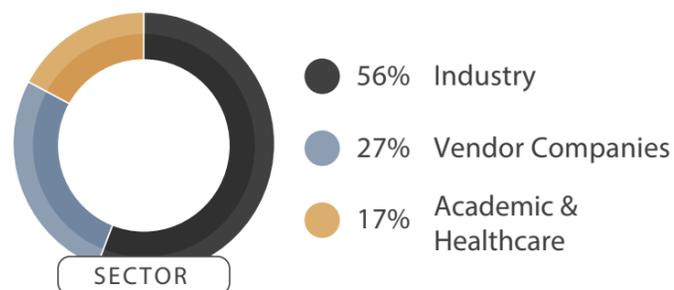

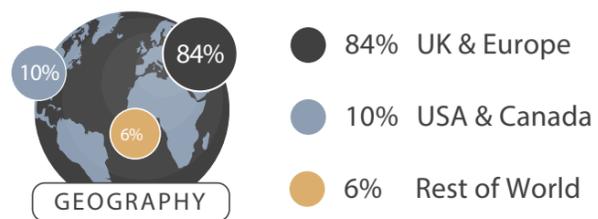

Read on for more feedback and reports from the 2019 event and for a snapshot of our plans in 2020!

- Cerlin Roberts, Conference Director

WHO DID YOU MEET AT THE ILEC CONFERENCE CENTRE?

A BREAKDOWN OF THE CONGRESS ATTENDEE PROFILE:

282 ATTENDEES

34% INCREASE YEAR-ON-YEAR

93 PRESENTATIONS

+ 8 THINKTANK ROUNDTABLES
+ 1 WORKSHOP
+ 2 PANEL DISCUSSIONS

17 SPONSORS

90+ ONE-TO-ONE MEETINGS

SUCCESSFUL PRE-PLANNED

"The event had the right level of delegates. The layout of congress and breakout areas was good, as was the quality of the catering."

- European Sales Manager,
Zenith Technologies

"I liked how the manageable number of delegates meant that we were able to have focused discussions. The event layout was good, as well as the venue and the size of the booth. We like the efficient support we received during set up."

- Product Manager,
Genestack

"I liked that the set of topics was quite varied and covered a lot of things useful for my job. The event gave me the opportunity to meet people I wouldn't normally interact with."

- Data Privacy Technical Lead,
Roche Products Ltd.

"The event had perfect organization, highly professional speakers, and interesting talks."

- Principal Data Scientist,
Amgen

"The presentations were high level, the attendees and time boxing were good, and the venue was nice."

- Account Manager,
ChemAxon

"The speakers were good, and the right number of parallel sessions guaranteed interesting talks throughout the day. The venue was in a nice location, the lunch was delicious and the drinks event very nice. The Oxford Global staff were also very friendly and visible - all in all it was a very professional event."

- Business Unit Manager,
Coriolis Pharma

YOU SPOKE, WE LISTENED:

Programme Content

You told us that the Smart Labs programme covered a wide range of interesting topics & featured numerous exciting speakers, however, would like to see more Lab Informatics related topics.

Due to the success of the inaugural SmartLabs congress in 2019, our 2020 programme will feature 3 dedicated SmartLabs streams. With additional presentations and case studies on IT tools & technologies used in the lab.

You suggested the programme to include more interactive discussions and increasing programme content.

Next year we'll be increasing the number of round table & panel discussions and will host several focused workshops throughout the event!

Networking

Your feedback highlighted the success of the networking sessions but you would like to see a pre-event welcome reception.

The 2020 congress will again feature ample networking opportunity, with several informal sessions encouraging peer to peer engagement as well as a pre-event welcome drinks reception.

Other features & improvements planned for 2020 include:

Based on the popularity of the event series, we will have heavier emphasis on pre event social marketing across various platforms, featuring Q&A and filmed interviews with key experts.
